

Community Resilience Plan

A Living Framework for Preparedness, Response, and Flourishing

Preamble

In accordance with the supreme law of our society, as established in **Powhatan's Hierarchical Codex of Collective Responsibility** (specifically the Duty of Communal Resilience & Emergency Preparedness, Tier 2.8) and in protection of the rights guaranteed in **Powhatan's Hierarchical Codex of Universal Rights**, this document establishes the framework by which the Concord of Guilds and its member communities shall prepare for, respond to, and recover from emergencies.

We recognize that true safety is not the absence of threats, but the presence of a prepared, connected, and compassionate community. Resilience is a collective responsibility and a direct expression of the **Love Standard** that underpins our economy. This plan is a living document, designed to be adapted, drilled, and improved upon, ensuring we can face any challenge with courage, coordination, and an unwavering commitment to the **Sacred Triad of Life, Knowledge, and Choice**. Our goal is not just to survive, but to emerge from adversity stronger, more united, and with a greater Gross Domestic Well-being (GDW) than before. This plan is the practical application of our shared values in the face of adversity.

Part 1: Core Command, Communication, and Economic Structure

1.1. Activation of Plan:

This plan is activated by a majority vote of the **Council of Enlightened Masters** or, in cases of immediate and overwhelming threat, by the ranking member of the **Justicars' Pursuit** or **Rangers' & Wardens' Guild** on-site, with an immediate report to the Council. Activation shifts the Concord into a state of heightened cooperation and prioritizes resilience-focused tasks on all Guild Request Boards.

1.2. Emergency Governance:

- **Resilience Council:** Upon activation, a temporary Resilience Council is formed, composed of:
 - The **Emergency Coordinator (EC)**, a pre-designated member of the **Civic Stewards' Guild** trained in crisis management. The EC's role is not to command, but to coordinate the flow of information and resources between Guilds.
 - The representative Masters from the **Medical, Ecological & Stewardship, Techno, and Hearth & Hospitality Guilds**.

- A representative from the **Economist Guild** to manage the Resilience Fund.
- A Justicar from the **Justicars' Pursuit** to ensure order and the protection of rights.
- **Authority:** The Resilience Council is granted temporary operational authority by the Council of Enlightened Masters to direct Guild resources specifically for the duration of the emergency. All decisions must remain in strict compliance with the Codices.

1.3. Communication Protocol:

- **Primary System (Low-Tech):** A network of runners, coded bell chimes, and signal fires, managed by the **Wayfinders' Guild** and **Rangers' & Wardens' Guild**.
- **Secondary System (High-Tech):** A secured, encrypted network managed by the **Digital Weavers' Guild**, to be used if infrastructure permits.
- **Central Muster Point:** A primary and secondary Muster Point, managed by the **Hearth & Hospitality Guilds**, where citizens can receive verified information from the **Chroniclers' Guild**.
- **All-Clear Signal:** A distinct, Concord-wide signal to indicate the immediate danger has passed and the recovery phase has begun.

1.4. Economic Resilience Protocol:

The Acorn Economy is designed for this. Upon activation of the plan:

- **Resilience Fund Activated:** The **Concord Treasury**, managed by the **Economist Guild**, will immediately release a pre-determined amount of Ren and external currency into a Resilience Fund.
- **Love Unit (LU) Prioritization:** The LU value for jobs directly related to the emergency response will be temporarily multiplied. For example, an hour of firefighting (Mutual Aid) or treating the injured (Equity & Care) may be valued at 5x its normal LU rate. This ensures that critical work is immediately and highly incentivized.
- **Emergency UBI:** The Resilience Council may authorize an emergency "Love Dividend" or a direct distribution of Ren to all citizens to ensure basic needs are met and the economy continues to function.
- **Community Resource Map:** The **Librarians' & Curators' Guild**, in coordination with the **Cartographers' & Surveyors' Guild**, will maintain a dynamic, real-time map of all critical community assets, accessible to the Resilience Council. This includes inventories from the **Green Thumb Collective** (food), **Keystone Guild** (shelter/tools), and **Medical Guilds** (supplies).

Part 2: Guild Roles & Threat-Specific Protocols

Resilience is the coordinated effort of the entire Concord. Each Guild Category has a pre-assigned role.

Protocol A: Fire Emergency (Ecological or Structural)

- **Lead Guilds:** Rangers' & Wardens' Guild, Fire Response Team (a sub-specialty within the Civic Stewards' Guild).
- **Preparedness:**
 - **Ecological Guilds:** Maintain firebreaks and manage forest health.
 - **Techno Guilds (Keystone):** Ensure all structures are built to code with fire-resistant materials. Maintain and inspect all firefighting equipment.
- **Response:**
 - **Fire Response Team:** Active firefighting and containment.
 - **Medical Guilds:** Triage and treat injuries, specifically burns and smoke inhalation.
 - **Hearth & Hospitality Guilds:** Manage evacuations and establish temporary shelters at community inns or halls.
 - **Wayfinders' Guild:** Coordinate safe evacuation routes.
- **Recovery:**
 - **Worthy Hands & Keystone Guilds:** Organize work crews for cleanup and rebuilding.
 - **Restoration & Terraforming Guild:** Begin immediate work on ecosystem recovery.
 - **Tranquil Mind Guild:** Provide counseling for trauma.

Protocol B: Medical Emergency (Mass Casualty / Epidemic)

- **Lead Guilds:** All Medical Guilds (Caduceus Covenant, Verdant Mortar, Tranquil Mind).
- **Preparedness:**
 - **Medical Guilds:** Stockpile essential supplies. Train community members in basic first aid and hygiene.
 - **Helix & Circuit Guild:** Research and prepare rapid diagnostic tools and potential treatments.
 - **Information & Lore Guilds:** Prepare clear, accurate public health communications.
- **Response:**
 - **Medical Guilds:** Establish a central infirmary and triage system. Implement quarantine protocols (as per Codex Tier 2.3, Digital Safety and Data Stewardship, to protect privacy).
 - **Hearth & Hospitality Guilds:** Deliver food and supplies to quarantined

households.

- **Economist Guild:** Track the significant generation of LUs in the Equity & Care (IEI) category.
- **Recovery:**
 - **Tranquil Mind Guild:** Lead community-wide mental and emotional recovery efforts.
 - **Chroniclers' Guild:** Document the event to improve future response, honoring both the fallen and the responders.

Protocol C: Severe Weather / Natural Disaster

- **Lead Guilds:** Ecological & Stewardship Guilds, Techno Guilds.
- **Preparedness:**
 - **Keystone Guild:** Design and reinforce community shelters rated for specific threats (tornadoes, floods, etc.).
 - **Green Thumb Collective:** Maintain diverse and resilient food systems, including secure seed banks and greenhouses.
 - **Animal Husbandry Guild:** Ensure the safety and shelter of all community animals.
- **Response:**
 - **Civic Stewards' Guild:** Issue early warnings and direct citizens to designated shelters.
 - **Techno Guilds:** Work to maintain power, water, and communication infrastructure.
 - **Hunter Guilds (Horizon Seekers):** Perform search and rescue operations post-disaster.
- **Recovery:**
 - **All Trade Guilds:** Prioritize repairs to essential infrastructure and housing.
 - **Economist Guild:** Assess the GDW impact and adjust the Love Dividend to stimulate rapid, community-focused rebuilding.

Protocol D: External Threat / Security Breach

- **Lead Guilds:** Justicars' Pursuit, Ironvine Academy.
- **Preparedness:**
 - **Ironvine Academy:** Train all citizens in basic self-defense and de-escalation techniques, grounded in the Way of Least Violence.
 - **Justicars' Pursuit:** Establish watch rotations and secure community perimeters.
 - **Bureaucratic Guilds (Scales of Balance):** Ensure all protocols are in alignment with the Codices, particularly regarding the rights of any intruders.

- **Response:**
 - **Primary Strategy (Shelter-in-Place & Non-Engagement):** The goal is to remain an uninteresting and high-effort target. All citizens will secure themselves.
 - **Observation:** The Justicars will observe and report, using their skills to understand the threat's nature and intent without revealing the community's strength.
 - **Defense of Life:** As a last resort, and only in the face of direct, unavoidable physical attack, a coordinated defense will be mounted by the Justicars and Ironvine Academy members, strictly to neutralize the immediate threat and preserve life.
- **Recovery:**
 - **Tranquil Mind Guild:** Provide support for those who experienced fear or trauma.
 - **Scales of Balance Guild:** If intruders are captured, oversee a restorative justice process in accordance with Codex Tier 4.5.

Protocol E: Socio-Economic Shock (Supply Chain Collapse / Currency Devaluation)

- **Lead Guilds:** Economist Guild, All Trade Guilds.
- **Preparedness:**
 - **The entire Acorn Economy is the preparedness plan.** By valuing internal production and well-being, we are inherently insulated from external market shocks.
 - **Fair Trade Caravan:** Maintain diverse and redundant supply lines for essential goods that cannot be produced locally.
 - **Economist Guild:** Maintain a healthy Concord Treasury with a diverse basket of external currencies and assets.
- **Response:**
 - **Internal Focus:** The Resilience Council will declare a period of economic introspection, encouraging all trade to be conducted in Ren.
 - **Resource Inventory:** The Community Skills & Resources Inventory becomes the primary tool for sourcing needs locally.
 - **LU Revaluation:** The LPV (Love Parity Value) of the Ren against the failing external currency will be adjusted, strengthening our internal economy.
- **Recovery:**
 - **Sandbox Guilds:** Analyze the external failure and propose innovations to make our system even more resilient.
 - **Economist Guild:** Report to the Concord on the success of the Acorn model,

reinforcing community trust and investment in the Love Standard.

Part 3: Universal Protocols

These protocols are active during *any* emergency.

3.1. Universal Refuge Protocol (Codex Tier 2.6):

Even in a crisis, our doors remain open. The **Hearth & Hospitality Guilds** will manage a safe, separate intake area for refugees, providing immediate aid. The **Medical Guilds** will provide health screenings, and the **Scales of Balance Guild** will ensure their rights are protected. They are to be welcomed, not treated as a burden.

3.2. The Right of Sabbatical Renewal (Codex Tier 13.9):

The right to a Sabbatical is sacred, but in a Concord-wide emergency, it may be voluntarily postponed. Individuals on Sabbatical within the community may choose to volunteer their skills, which will be recognized with a significant LU bonus upon the conclusion of the emergency. This is a choice, not a requirement, honoring the Sovereign Sphere.

Part 4: Review and Adaptation

This plan is a living document. After every activation, and on a bi-annual basis, the **Council of Enlightened Masters**, with input from the **Chroniclers' Guild** and all other Guilds, will conduct a full review. Drills will be conducted, vulnerabilities will be identified, and the plan will be amended through the established charter process. Our resilience, like our wisdom, must be allowed to grow.
